

Author Profile Pages

Showcase Your Work

Author Profile Pages are an excellent way to showcase and promote an author's scholarly work. This page automatically displays a list of an author's articles and ScholarCheck statistics, and can be enhanced to include a photo, biographical information, and links to the author's website and social media accounts. Use email alerts to be notified when an author's articles are added, or when the author is cited by new articles added to the database.

It's easy to set up your author profile!

Ranking is based on:

- The number of times an article has been cited by other articles and cases
- The number of times an article has been accessed by other HeinOnline users within a rolling 12-month period
- The number of times an article has been cited by articles written in the past 10 years
- The number of times an author's articles have been cited by articles written within the past 12-24 months

How to Enhance an Author Profile Page

If an author already has articles in HeinOnline, a basic version of their page will automatically be created—compiling articles and providing a ranking. To enhance an author profile page by adding a photo, bio, and further information, visit <http://home.heinonline.org/author-profile-setup-request/>. You will be asked to provide the following:

- Email address
- Birth year
- University/affiliation
- Title
- Orchid ID#
- Author biography
- Links to social media profiles such as Facebook, LinkedIn, Twitter, etc.
- Photo

Once the form is submitted, a HeinOnline Support Representative will create the page and send you a draft for your approval. Once approved, your enhanced profile page will be made available in HeinOnline.

Access ScholarRank's Top 250 Authors

Access ScholarRank's Top 250 authors to see who is leading legal scholarship based on the five ranking metrics at https://home.heinonline.org/top_authors/

The following list is calculated based on an analysis of all articles in HeinOnline. We then ranked each author in each category: number of times cited by articles, number of times cited by articles written in the past 10 years, number of times cited by articles written in the past 12-24 months, number of times cited by cases, and number of times accessed and averaged the rankings to produce this list of the 250 authors that scored the highest when averaging all categories.
